ZTechnik Windshields for K1200 Series Verified to fit new K1300R, K1300S and K1300GT

ZTechnik, the world's leading aftermarket manufacturer of windshields for BMW Motorcycles, has verified that its windshields for the K1200GT, K1200S and K1200R fit properly on their new K1300 siblings.

For the K1300GT, ZTechnik offers VStream windshields in two heights for average height and taller riders. The patented VStream® design has been proven on other BMW models including the R1200RT and K1200LT. The advanced V-shape and dimensional contours of the VStream® windshields push the wake created by the front of the motorcycle out and away more than 4 inches from the side of the rider's helmet. This wake, known as the von Karman Vortex, creates noise and helmet buffeting for riders and passengers.

K1300S riders will appreciate the dark polycarbonate Z2220 windshield. Styled as a direct replacement for the OEM clear shield, the Z2220 is an excellent contrast to the Lava Orange Metallic and Light Grey Metallic color options. On the Sapphire Black/Granite Grey/Magma Red bike, the Z2220 matches the black color of the upper fairing. The aggressive styling and performance of the K1300R demands a well-designed, high-performance windshield. The design and performance of the Z2225 is a perfect match. Formed from Quantum-coated dark polycarbonate, the Z2225 makes long rides more comfortable while preserving the naked bike experience.

Every ZTechnik K1300 windshield is formed from hard coated, 4.5 mm polycarbonate. The result is a windscreen that is up to 30X more scratch resistant than competitor's acrylic shields. Polycarbonate is also 20X more impact resistant than even high-impact acrylic used by other aftermarket windshield manufacturers.

Hard Coated Z2452 or Z2453 VStream windshields offer protection for average and taller riders

The dark polycarbonate Z2220 windshield adds style to the K1200S or the new K1300S

K1300GT Windshield Measurement Comparison by Part Number:

Shield PN	Vendor	BMW Model	Model Year	Height	Width at Top
46637685017	BMW	K1200-K1300GT	2006-2009	22.5"	23.5"
71607699600	BMW	K1200-K1300GT	2006-2009	24.5"	23.5"
Z2452	ZTechnik	K1200-K1300GT	2006-2009	25.2"	23.8"
Z2453	ZTechnik	K1200-K1300GT	2006-2009	26.6"	23.9"

We back up every ZTechnik windshield with our groundbreaking new 3-Year Unbreakable Warranty. We are so confident in the strength and durability of our hard coated polycarbonate windshields that we will replace your ZTechnik windshield if it breaks for any reason, other than intentional abuse or chemical damage, for a period of 3 years from the date of purchase. This policy covers windshield breakage resulting from parking lot falls as well as from an accident. Please read the sticker on your windshield for care and cleaning instructions.

ZTechnik is a division of National Cycle, Inc., focused exclusively on accessories for BMW motorcycles. An industry leader in motorcycle accessories for more than 70 years, National Cycle is an OEM manufacturer of windshields and accessories for leading motorcycle manufacturers, including BMW. ZTechnik manufactures and distributes the highest quality windscreens, exhaust systems, lighting and other accessories under the ZTechnik Brand through authorized BMW Dealers and motorcycle accessory retailers worldwide.
